SPEAKER PROFILE

Pertisth Mankotia
Head IT
Sheela Foam (Sleepwell)

Delegate Registration

A global Information Technology executive with 20+ years of experience developing and executing IT strategies in alignment with corporate objectives. Pertisth has been successful in global manufacturing environments during all cycles of business, including high growth, downturns and acquisition integration.

He holds an established record as a leader and business partner, who collaborates with other executives to use technology to transform and simplify business processes, while delivering bottom line measurable benefit, with a track record of bringing profitable business growth. He's also an energetic leader with a passion for people development and a recognized innovator. Pertisth has a very deep understanding of all functions such as Marketing, Operations, Collections, Finance; Quality in a manufacturing & Distribution environment.

He began his career with the Sheela Group (Sleepwell) at the age of 22, in 1995. During his journey he developed and implemented a home grown ERP named "Greatplus". He has been responsible for digitization of an enterprise, to bring speed and innovation to the business. Today, all processes (Manufacturing & Distribution), be it internal or external, are governed by IT at Sheela Group (India & Australia).

During his 17 years at Sheela Foam (Sleepwell), the Group has grown at an approximate rate of 25 percent per annum, with Information Technology initiatives significantly contributing towards this growth.

Pertisth has spoken at many industry forums on both international and national platforms. He is also a recipient of many National and International awards for high quality of IT management practices, innovations and expanding the business with various IT initiatives. Some of these awards are:
