

29.30.31 October 2015

Bangalore International Exhibition Center, Bengaluru

SPEAKER PROFILE

Tarun Sareen

Head EMC IT - APJ and APJ Theater Lead,
EMC Corporation

Delegate Registration

Tarun Sareen leads the EMC IT - Asia Pacific and Japan (APJ) and runs the Global Delivery Program of EMC IT organization. Tarun's core responsibility is to deliver innovative business solutions to enable EMC's business objectives and strategic priorities by driving and maturing end to end IT solutions and services development and delivery and infrastructure management services. He and team are focused on redefining IT to run "IT as a Business" and deliver "IT as a Service (ITaaS)", and architecting for the future by undertaking the journey to cloud, big data and trust. He is responsible for developing key next gen organizational capabilities in Cloud Platforms and Services, Big Data, Third Platform Capabilities (Social, Mobile, Analytics, Agile, SaaS) and Security in APJ. He is passionate about innovation and has spearheaded innovation and continuous improvement with significant results (patents/disclosures, business impact). He has played a critical role in building a culture of quality and enhancing the customer experience globally for users in EMC.

Tarun is also EMC APJ Theater Leader responsible for leading and evangelizing EMC IT's own ongoing transformation journey with CxOs - EMC's customers, partners and industry and helping accelerate business growth. He is active in CIO forums, working with organizations on their IT strategy and transformation.

Prior to joining EMC, Tarun held various senior leadership positions, including: Head for Internet and Mobile Banking for emerging markets at Barclays (where he led the development and launch of Internet Banking and Mobile Banking for 70,000 customers); Director at Microsoft IT (where he started up and ran multiple business units and COEs for delivering IT solutions world-wide); and Leadership positions at General Electric (where he set up and ran the India IT center for GE Aircraft Engines delivering to seven business units). Before GE, Tarun was a Senior Consultant at Cap Gemini Inc., USA.
